About Me

Get to know me better

Hello! I'm Mark Allen Dela Cruz

I'm a passionate frontend developer with over 5 years of experience creating beautiful and functional web experiences. My expertise includes HTML, CSS, JavaScript, and modern frameworks like React and Vue.

I believe in writing clean, efficient code and creating intuitive user interfaces that solve real problems. When I'm not coding, you can find me hiking, reading, or experimenting with new design tools.

I'm constantly learning and keeping up with the latest web technologies to deliver cutting-edge solutions for my clients and employers.

HTML5 CSS3 JavaScript React Vue.js
